Powertek is the engine that accelerates your business forward...fast and efficiently.

Powertek provides a broad range of services to Government customers in the areas of information technology, business engineering and program management services. We offer various contracting vehicles, including GSA Schedule 70, GSA FABS, GSA STARS, GSA MOBIS, Strategic Services Sourcing (S3), Seaport-e, and ENCORE II.

Powered by innovation and ingenuity, we provide the people, processes, and technology to improve performance, reduce costs, and minimize risk. As evidenced by our outstanding performance record, ***we deliver what we promise...***through leadership, innovation, and dedication to your unique needs and challenges.

At Powertek...***your success is our mission.***

HOW WE DO IT: SERVICE EXCELLENCE IS OUR WAY OF LIFE

Powertek's goal is to be the reliable industry resource by continually exceeding our customers' expectations through commitment, collaboration, and consistency. We set high standards for accountability, assembling the best talent, deploying a collaborative, customer-focused approach, and demonstrating our dedication to continuous improvement. We leverage our talented staff to answer customer challenges by applying technology best practices to meet Government mandates and customers' goals. Our solutions combine our technical capabilities with our understanding of Government environments, resulting in the best value for our customers.
